

Points to note when walking on Mt.Maruyama Trekking Course

Slippery places

There are some slippery places between Mt.Maruyama and Yappeigahara, and between Yappeigahara and the Rest House because of clay surface. Be careful especially after rainfall.

Points easy to mistake

There are two places where it is easy to get lost on the way between Yappeigahara and Kirifurikogen Rest House.

You can see the road downward, but it is a mistake to go down to the road.

The correct way runs parallel to the road, and repeated a small up and down.

Don't forget map and compass when trekking or mountaineering.
